# OMAR MOHAMED AHMED ATTYA

## ARTIFICIAL INTELLIGENCE STUDENT & DATA SCIENTIST

📍 Cairo, Egypt ✉ furgjyxcnm@gmail.com 🔗 LinkedIn Profile 💻 GitHub Profile

## PROFESSIONAL SUMMARY

Ambitious Artificial Intelligence student and aspiring Data Scientist with a solid foundation in data analysis, statistical modeling, and machine learning principles. Proficient in Python, SQL, and data visualization tools, with hands-on experience in building predictive models and processing datasets through practical projects. Possesses strong analytical problem-solving abilities and active student activity leadership experience.

## EDUCATION

**Faculty of Computers and Information, Zagazig University**
**Specialization: Artificial Intelligence - 3rd Year**

## TECHNICAL SKILLS

**Programming Languages:** Python, SQL

**Data Science & ML:** Machine Learning, Data Cleaning, Data Visualization, EDA

**Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn

**Tools & Environments:** VS Code, Jupyter Notebook, Git & GitHub

## KEY PROJECTS

**Exploratory Data Analysis (EDA) on Movies Dataset** Python | Pandas | Matplotlib | Seaborn

- Cleaned and preprocessed raw movie datasets using Pandas to handle missing values and duplicate records.
- Visualized key dataset insights and ratings distribution using Matplotlib and Seaborn.
- Conducted exploratory analysis to identify top-performing genres, statistical trends, and feature correlations.

**House Price Prediction Model** Python | Scikit-learn | Pandas | NumPy

- Applied data cleaning, feature selection, and normalization pipelines using Pandas and NumPy.
- Built and tuned a Linear Regression model using Scikit-learn to predict house valuations.
- Evaluated model accuracy metrics and generated visual scatter plots comparing actual vs. predicted values.

## PROJECTS & ACTIVITIES

**DrowsyGuard AI** Team Member

- Participated actively as a team member in developing the DrowsyGuard AI project, focusing on collaborative task execution and team coordination.
- Applied teamwork, active communication, and problem-solving skills to support the team in building the AI-based monitoring concept.

## SOFT SKILLS & LANGUAGES

**Soft Skills:** Problem-Solving, Teamwork & Collaboration, Time Management, Continuous Learning

**Languages:** Arabic (Native), English (Good / Intermediate)
